SUMMARY

I am very interested in developing an application or website. I love to learn more about developing an application or website. I want to search for more experience in the IT field because it's fun to study more about programming. I am very open to new knowledge in the IT field. Now I am focus on learning Backend Developer

am very interested in developing an application or website. I love to learn more about developing an application or website. I want to search for more experience in the IT field because it's fun to study more about programming. I am very open to new knowledge in the IT field. Now I am focus on learning Backend Developer.
