## SUMMARY

---

I am very interested in developing an application or website. I love to learn more about developing an application or website. I want to search for more experience in the IT field because it's fun to study more about programming. I am very open to new knowledge in the IT field.

I want to learn more about developing an application or website. I want to search for more experience in the IT field because it's fun to study more about programming. I am very open to new knowledge in the IT field. Now I am focusing on learning in the field.
